

Re-entry: Trash & Recycling Guide

December 2018 * www.NorthernRecycling.biz * 530-876-3340

Service Update

NRWS has resumed services for all areas. Service days remain the same. Although we may have limited access for some areas and pickups may be later than normal.

Residents may use all 3 carts for trash through the month of December to aid with clean up. Recycling and yard waste services will start up again in January. **NO fire related debris should be included in your trash carts.**

It is important to contact us to let us know your current service needs and to update your contact information for any billing or refunds needed. **Email: CustomerService@NorthernRecycling.biz**

As a local business we are still evacuated from our office and have suffered many losses as well. We are working with limited staff and office capabilities so it is best to email us to update your information at this time. We are proud to be able to continue to service our community in the aftermath of this terrible disaster and look forward to working together to rebuild.

Returning Home

When returning to your home please make sure to follow all county health and safety procedures. Throw out all food and follow the proper cleaning procedures to sanitize your refrigerator, which can be found at www.buttecountyrecovers.org.

Once your refrigerator is emptied and you would prefer to recycle rather than clean it, you can contact us and request a bulky item pickup at customerservice@northernrecycling.biz. Fees apply. Or you take it to the following facilities:

Neal Road Recycling and Waste Facility: 1023 Neal Rd, Paradise.

Chico Scrap Metal: 878 E. 20th St, Chico

Crown Metal: 4801 Feather River Blvd. Oroville, CA.

Normal recycling fees apply.

Again, please remember that fire related debris should not be disposed of in your trash carts.

Service Schedule

- = Recycling Week (Blue Cart)
- = Yard Waste Week (Brown Cart)

See Back for Recycling Center and HHW Facility information
